WORK EXPERIENCE

MERN Stack Developer Intern

Feb 2023 - Apr 2023

- Contributed at Sarvmatre International Pvt Ltd by developing an e-Commerce website using Micro-Frontend Architecture.
- Engineered RESTful services to support payment gateways, product catalogs, and authentication.

PROJECTS

Trading Application

- Developed a ReactJS-based paper trading platform to simulate stock trading with virtual funds, offering a risk-free environment. Integrated portfolio management and transaction history to track progress.
- Incorporated TradingView APIs to deliver a real-time stock trading experience.

Prompt Sharing Website

nextjs-prompts.vercel.app

- Built a website using NextJS, leveraging its full-stack capabilities to construct both the intuitive frontend experience and the robust backend API, enabling seamless user interaction and data management.

Blockchain Medical DataExchange

- Created a decentralized data marketplace enabling patients to securely share and monetize their medical information with researchers and various entities.
- Designed a decentralized marketplace for sharing patients' health data using smart contracts and IPFS-based data storage, ensuring 100% data security and integrity.

Quiz Competetion

thequrancompetition.com

- Designed and launched a web application as a freelancer through the Upwork platform. Collaborated with the client regularly and delivered high-quality results, achieving a 100% client satisfaction rate.
- Utilized React Redux and Integrated third-party libraries and APIs to enhance the website's functionality, such as incorporating Razorpay payment gateway.

EDUCATION

2021 - 2025 B.Tech(Computer Science Engineering) at **SRM University, AP** (GPA: 8.4/10)

SKILLS

Programming Languages	JavaScript, Python, C, C++, Java, Bash
Frameworks and Technologies	HTML, CSS, React JS, Node JS, Next JS, Express, MongoDB, Tailwind-CSS, Firebase
